DAKA LIFT LEVELER

ITEM NUMBER:

2025

SPECIFICATIONS:

- Light weight, 20 lbs.
- 5' Tall
- 5/8" x 28" steel hook.
- 250 lb. Lifting capacity.
- 3/16 galvanized aircraft cable
- Stable 3 - legged base
- 1100 lb. capacity Dutton Lanson ratchet winch

The lightweight easy to use DAKA lift leveler is a handy tool to assist in lifting your DAKA Cantilever or Vertical lift. The simple 20 lb. "jack" style winch includes a 23" steel hook that enables one to easily reach one of the bottom cross members. The all aluminum frame makes it easy to handle. Once in place, the easy cranking winch allows you to raise the unloaded lift, in order to adjust the legs, mount or dismount wheels.
